

Case Study

Derriford Hospital Plymouth Air handling unit refurbishments

As part of an on-going programme of work AHS Specialist Services have undertaken a wide range of refurbishment works on air handling units at this site.

Projects include, removal of double inlet centrifugal forward curved fans with single inlet 'plug' fans, c/w inverter fan speed controllers. Case refurbishment, new bulkheads, AV mounts and flexible connections included.

Strip out of AHU cases and treating corrosion, plus fitting of new stainless steel panelling, new stainless steel dampers, new stainless steel filter frames, new frost coils including kit form, new access doors.
